## Frontend developer

 +20 106 855 5739  linkedin/Zahra3leem  github/zahra3leem  fatmaabdelaleem24@gmail.com

## PROFILE

---

Frontend developer with expertise in front-end technologies and a good understanding of Back-End development, enabling me to contribute effectively to Full-Stack projects. Eager to learn and apply new technologies quickly, work well in team settings, and use my creative and analytical skills to deliver high-quality web solutions.

## EXPERIENCE

---

### Revues

October 2024 – present | Canada, Remotely

Front-end developer

- Built end-to-end SaaS platform for online reputation management using AI-powered review responses (GPT-3.5) and multi-channel analytics.
- Engineered dynamic dashboards with real-time sentiment analysis and performance tracking using Next.js 14 App Router + React Server Components.
- Implemented secure onboarding flow with JWT auth, role-based access (CASL), and Google Business API integration.
- Achieved 92% user retention through animated UI components (Framer Motion) and localStorage sync.
- Reduced client response time by 40% via automated review categorization and AI draft generation

### Tech Stack:

Next.js 14 TypeScript Tailwind Shadcn UI Clerk

Google Business API OpenAI GPT-3.5 CASL Zod React Query PostgreSQL
